SUMMARY

UX/UI Designer with ~4 years of experience who gets handed messy, complex problems and ships clean, deliberate interfaces on tight deadlines. Background spans FinTech, E-commerce and Telecommunications, covering analytics dashboards, digital banking flows and multi-sided commerce platforms. Works across the full design cycle from research to developer handoff that bridges the gap between design and engineering.

EXPERIENCE

Flood.in

UX Designer

Remote

Dec 2025 – Present

- Designed conversational, AI-native banking interfaces for FinTech products serving top Indian banks, across self-service, mobile, and agent-facing flows.
- Presented design directions to stakeholders with clear rationale, guiding teams toward the strongest solution.
- Iterated on digital banking screens through continuous stakeholder feedback, streamlining developer handoff with production-ready HTML/CSS.
- Translated complex Telecommunications requirements for a major global provider into clear, audience-specific interfaces.
- Folded AI-assisted tooling into the workflow to move faster from concept to handoff without compromising quality.

Keuro Life

UX Designer

Riyadh, Saudi Arabia (Remote)

Feb 2025 – Dec 2025

- Designed consumer platforms across Beauty e-commerce (Riyaah.sa) and an AI-based astrology product (AstroSure.ai), uncovering behavioral differences between Saudi and Indian user cohorts to inform product architecture.
- Redesigned dense layouts into structured, low-ambiguity interfaces aligned with regional expectations.
- Built RTL-optimized layouts with localized trust signals, improving usability for Arabic-speaking users.

CodeSport Studio

UX/UI Designer

Dehradun, India (Remote)

Apr 2024 – Jan 2025

- Refined designs for national and international Sports Technology platforms using direct user feedback to match established team brands.
- Ran collaborative design sessions and mentored design interns in user-centered design and persona-driven wireframing.
- Designed full brand identity, apparel, and marketing assets for the Everest Women's Volleyball League and Gandaki Thunders; team content reached millions of views on YouTube.

AdReport.io

UX/UI Designer

Toronto, Canada (Remote)

Jan 2023 – Feb 2024

- Designed and maintained analytics dashboards for MarTech and AdTech, reducing report-building time by ~30% for marketing users.
- Organized complex data into clear visual charts across mobile and web, improving daily reporting efficiency.

Happet Innovations LLP

UX/UI Designer

Bangalore, India (Remote)

Oct 2022 – Jan 2023

- Designed a comprehensive Quick Commerce and local E-commerce application serving customers, delivery partners, merchants, and admins, with a consistent experience tailored to each user group.

EDUCATION

Bachelor of Design, UX/UI Design — DIT University, Dehradun

Jan 2020 – Apr 2024
